

Wire Rope Clip & Bare Galvanised Steel Wire

BARE GALVANISED STEEL WIRE

The bare galvanised steel wires are known for their durability and long lasting performance. These are used for various electrical purposes and fabricated using superior grade raw material. Having outstanding strength, these bare galvanised steel wires are OEM and offered in standard lengths and sizes.

Bare Galvanised Steel Wire to BS183, BS443, Grade 700

Nominal Strand Diameter	Stranding No.	Weight (kg) / coil	Part No.
6.00 mm	7 / 2.00 mm ²	50 kgs	BGSW714
7.95 mm	7 / 2.64 mm ²	50 kgs	BGSW712
9.75 mm	7 / 3.25 mm ²	50 kgs	BGSW710
12.00 mm	7 / 4.00 mm ²	50 kgs	BGSW78

* Other sizes also available upon request.

WIRE ROPE CLIP

These **Wire Rope Clips** are OEM and designed for maximum holding strength. Heavy duty construction throughout. Wire Rope Clips are effective hardware for installing loop ends on a cable assembly. **WRC** series wire rope clips are not to be used on a plastic coated cable without first stripping off plastic. **Wire rope clips must be installed over bare cable only.**

Pipe Diameter	Conductor Range	Part No.
13mm	25mm ² - 95mm ²	WRP13
16mm	25mm ² - 95mm ²	WRP16
20mm	25mm ² - 150mm ²	WRP20
25mm	25mm ² - 150mm ²	WRP25
32mm	25mm ² - 150mm ²	WRP32

* Other sizes also available upon request.
